

As a customer of Acacia Energy, we are offering you the ability to save money on your energy bills with no limit to the amount you could save. There is no better time than right now to **make some extra money**. We are excited to offer the...

energize your friends and family

...program to our select customers!

With the Energize Your Friends and Family program, simply refer a friend and you can earn \$30 towards your next energy bill. And that is **\$30 for every person you refer** with no limitation on the number of people you can refer. In addition, the customer you refer also receives \$10 instantly towards their energy bill.

Simply have your Friends and Family visit the **web site** or call **(877) 348-8772**. If your Friends and Family decide to call in, simply have them provide your account number when asked if they were referred; or have them enter your account number in the promo code box when signing up online.

The only thing your referral needs to do is sign up with Acacia Energy, stay active for 30 days with our Smart Meter plan, or make their first monthly payment in full on any of our other plans, then watch the money automatically deduct from your bill!

Thank you for being a loyal Acacia Energy customer!

Sincerely,

Stephen Alexander
Director of Marketing
